

This drawing has been prepared from the details supplied to us by the customer, who should confirm that we have correctly interpreted that all requirements have been fully satisfied. The customer must ensure that the intended mechanical handling equipment will correctly operate within this storage system. The customer must also ensure that all other associated trades not contracted by Link51, such as lighting, sprinkler systems, etc. are fully compatible with this storage system. The customer should confirm with the relevant Local Authority any Planning, Building Regulations & Fire Regulations requirements.
