

PLP MK

MILTON KEYNES, MK17 9FE

ENVIRONMENT, SOCIAL  
& LOCAL AMENITIES

# PLP MK

PLP MK is a market leading business park that will provide a **best in class environment** for our **industrial and logistics customers**.

All the units benefit from **future proofing environmentally conscious design** to meet the **'PLP Standard'** and to deliver our customers **Net Zero Ready** facilities.

**Productivity, enjoyment, health and well being** are all central to PLP MK. The park sets a new benchmark for **direct access to extensive leisure and amenity**.

# SOCIAL

The PLP Standard seeks to deliver an unparalleled environmentally conscious business park:

- **26.3 acres** of **open grassland** and meadows for **leisure use** and **wellness**
- Including **17 acre landscaped leisure space** to be managed by the award winning **Milton Keynes Parks Trust (MKPT)**
- **1.8km of site wide scenic leisure route** directly linked to over **80km of uninterrupted paths** and **11 Parks** all managed by MKPT
- **3.8km** of on site **dedicated pedestrian** and **cycle access**
- On site **cycle path**, known as a **Redway**, provides **fully integrated access** to over **200 miles of traffic free paths**
- **Unrivalled proximity** to the city's **extensive amenities** and **transport network**
- **7 nearby children's nurseries**

# ENVIRONMENT

PLP MK's build environment will provide our customers with market leading specifications to deliver Carbon Net Zero ready occupation:

- The first major **Carbon Net Zero Ready logistics park** in the south east in accordance with the **UK Green Building Council (UKGBC)**
- Minimum **BREEAM 'Very good'** certification
- Targetting **EPC 'A'** rating
- Compliant to Milton Keynes Council's (Plan:MK) **Sustainable Construction Policy SC1**
- **Future proofed smart design** to accommodate flexibility and **enhanced specification** to include **green features**
- Direct financial contributions to **sustainability** and **green design** totalling **£3,498,869**

# THE PLP COMMITMENT TO A BRIGHTER FUTURE

Working with Turley Sustainability and Natural Capital Partners, leading experts in net zero and climate finance, PLP is delighted to announce their commitment to deliver all new speculative developments as carbon net zero in accordance with the UK Green Building Council Net Zero Buildings Framework.

New buildings will be net zero ready through reducing and then offsetting remaining construction carbon via high-quality international projects, 50% Cookstove project Ghana and 50% global renewable energy.

The carbon net zero concept combines carbon net zero construction with carbon net zero design including targeting an EPC A rating and an all-electric building services strategy. PLP also double any solar PV requirement of the local planning authority. This enables tenants to achieve carbon net zero operation by utilising built in renewable energy features and procuring appropriate renewable energy supplies.

To reduce construction carbon, PLP utilise smart materials such as 100% recyclable cladding systems plus low carbon concrete and steel. Remaining carbon emissions are addressed via the purchase of high quality carbon offsets to achieve carbon net zero construction at practical completion in accordance with the UKGBC Framework.

£1.2 MILLION

Bio-diversity offsetting contribution - habitats in accordance with the Milton Keynes Biodiversity Offsetting Scheme

**17 ACRES**

The creation of 17 acres of lowland meadows and investment in public open spaces across the town

£1.66 MILLION

Carbon offset contribution in accordance with the council's sustainable Contribution Supplementary Planning Document (2007)

Pedestrian and cycle access, with integration into the Milton Keynes Red Way cycle network through the estate spine road and through the informal public space, plus a contribution to improvements to the pedestrian route to Bow Brickhill Station

**3.8 KM**

On-site bus stop plus investment in improvements to local bus routes

Extensive on-plot provision for cycle storage, maintenance and showering facilities

**9.4 ACRES**

Archaeological protection

Electric vehicle charging points throughout the scheme

Green future proofing to allow occupiers to install up to 100% PV roof coverage

Ecological protection and mitigation for reptiles, bats, badgers, nesting birds and the watercourse

£250,000

Investment in public art

Supporting the community with financial investment in social and emergency services

# ENVIRONMENTAL, SOCIAL & GOVERNANCE

## Milton Keynes Policy (Plan:MK)

---

Compliant to Sustainable Construction Policy SC1 exceeds BREEAM and building regulations

## Bio-diversity offsetting contribution

---

£1,261,166 contribution of new habitats in accordance with the Milton Keynes Biodiversity Offsetting Scheme.
